

2.1 Health and safety issues relating to the installation of vertical greening systems

Working at Height means work in any place where, if appropriate precautions are not taken, a person could fall a distance liable to cause personal injury. You are working at height if you:

- work above ground/floor level
- could fall from an edge, through an opening or fragile surface or
- could fall from ground level into an opening in a floor or a hole in the ground

Work at height does **not** include a slip or a trip on the level, as a fall from height has to involve a fall from one level to a lower level, nor does it include walking up and down a permanent staircase in a building.
